**Company Background:**

Wohler Technologies Inc. offers a comprehensive range of products that simplify analog and digital source monitoring in facilities of all sizes and complexity. Wohler Technologies was founded in 1987 and, through constant innovation, continues to be a world leader in providing in-rack audio, video, and data monitoring and captioning solutions for the broadcast, motion picture, and professional audio/visual markets. More information about the company and its technologies is available at [www.wohler.com](http://www.wohler.com).

**Wohler at Broadcast India 2009:**

Products on display during Broadcast India 2009 include versatile 16-channel audio monitors that accommodate a mix of inputs and outputs for SD, HD, and 3G operations; intuitive touch-screen systems that simplify video monitoring and routing while providing critical functional enhancements; versatile HD monitors for all variety of signal types; and analog and digital audio monitoring systems and level meters that together accommodate virtually every audio input type.

**Wohler Products at Broadcast India 2009:**

**AMP1-E16-3G 16 Channel Multirate SDI Audio/Video Monitor With Dolby® Capability**  
With dual selectable SD/HD/3G inputs, this is Wohler's first Dolby® E-capable and Dolby Digital Plus-ready 1RU 16-channel 3G audio/video monitor. Equipped with three high-performance

*More...*

cost-efficient OLED display screens, capable of displaying source video and advanced monitoring of 16 channels of audio simultaneously, the unit is ideally suited to support multichannel applications requiring both performance and cost-efficiency.

### **AMP2-16 Series Modular 3G Audio Monitor With Dolby® Capability**

Wohler's AMP2-16 Series modular audio monitor provides simultaneous level metering of up to 16 channels of audio as well as flexible loudness indication from the user's choice of input and output cards. Options include 3G, HD/SD-SDI, AES, analog cards, as well as system-wide Dolby® D, E and DD+ upgrades. The intuitive interface, complete with an integrated help system, allows users to manage presets, channel clusters, and mixing and routing.

### **RMT Single-Screen SD/HD LCD Monitors**

Wohler's new RMT single-screen SD/HD LCD monitors build on the success of Wohler's RM range of multiscreen HD monitors, offering the same industry-leading performance and popular feature set, along with multiple inputs, a waveform and vectorscope display, and eight channels of audio bar graph metering — all provided in a compact design and at a very competitive price point. Designed as fully inclusive solutions, RMT monitors support high-resolution imaging with built-in NTSC and PAL autosensing and are available as rack-mount or table-mount systems, or can be used with a standard VESA mount.

### **RM Dual-Input LCD Monitoring Series With Waveform Display**

Ideal for use in mobile trucks, news and transmission control rooms, and duplication and post-production facilities, each new RM series dual-input LCD rack includes two auto-sensing HD/SD-SDI and analog composite inputs. In addition to two-channel analog audio support, the racks provide one-channel-pair audio monitoring via a headphone jack or built-in speaker. All three of the new dual-input monitors are available with a waveform and vectorscope display as standard, along with audio level metering, labeling, tally, and more.
