**For Immediate Release**

## **Wohler Introduces New RMT Range of Feature-Rich, Competitively-Priced LCD Monitors With Waveform Display**

***New Line of Single-Screen SD and HD LCD Monitors Offers Quality and  
Convenience in Space- and Cost-Saving Design***

**HAYWARD, Calif. — April 20, 2009** — Wohler Technologies Inc. today announced the release of the RMT range of single-screen 15-inch, 17-inch, and 20-inch LCD monitors. The new RMT range builds on the success of Wohler's RM range of multi-screen monitors, offering the same industry-leading performance and popular feature set, along with dual inputs, a waveform display, eight channels of audio bar graph metering and built-in speakers.

"Mobile production trucks, news and transmission control rooms, and duplication and post-production facilities all require compact, convenient monitoring solutions with flexible inputs. The first monitors in our RMT product range offer that and more at a very competitive price point," said Kim Templeman-Holmes, vice president of global sales and marketing at Wohler. "In addition to supplying high-resolution images and integrated audio, these slim single-screen solutions provide valuable on-screen data that simplify monitoring by making critical audio and video parameters available at a glance."

Designed as fully inclusive solutions, RMT monitors support high-resolution imaging with built-in NTSC and PAL autosensing. Each screen can display eight channels of PPM over VU, audio level meters, IMD, safe areas, frame marks, cropping, switchable aspect ratios, and built-in color bars.

The four RMT monitors introduced today feature flexible inputs capable of handling composite/S-video/component (HD/SD) and VGA/DVI-D/HDMI video. The 15-inch RMT-150-SD

*More...*

and 17-inch RMT-170-SD feature two SD-SDI inputs and an SD-SDI active loop-through. The 17-inch RMT-170-HD and 20-inch RMT-200-HD feature two auto-sensing HD/SD-SDI inputs with an HD/SD-SDI active loop-through output. All settings are accessible from front-panel controls and the systems' intuitive on-screen menu.

Each of the new RMT single-screen LCD monitors from Wohler will be available as a rack-mount or table-mount system or can be used with a standard VESA mount.

More information about the new RMT product range and other Wohler products is available at [www.wohler.com](http://www.wohler.com).

**About Wohler Technologies Inc. and PANORAMA*dtv***

Wohler Technologies and PANORAMA*dtv* offer a comprehensive range of products that simplify analog and digital source monitoring in facilities of all sizes and complexity. Wohler Technologies was founded in 1987 and, through constant innovation, continues to be a world leader in providing in-rack audio monitoring solutions for the broadcast, motion picture, and professional audio/visual markets. With the 1997 launch of Wohler's video products division, PANORAMA*dtv*, the company expanded its offering to include a range of advanced video monitoring solutions as well. Today, Wohler provides a complete range of monitors and closed-captioning solutions that supports the entire broadcast transmission chain. Wohler is based in the San Francisco Bay Area with an Asia-Pacific division in Hong Kong. More information about the company and its technologies is available at [www.wohler.com](http://www.wohler.com).
